IMPORTANT CONSIDERATIONS

## REVEGETATION OF SILVICULTURALLY DISTURBED AREAS

### SILVICULTURE BMP #2

**Description:**  
Establish vegetative cover to stabilize the soil on sediment producing, erodible, or severely eroded areas resulting from silvicultural activities other than timber harvesting.

**AWQA Minimum Requirements:**  
Areas of disturbed soil associated with silviculture and forest management operations (other than timber harvesting addressed in BMP 1) shall be promptly seeded and measures taken to promote vegetative cover to minimize erosion and/or runoff entering streams or channels. Vegetative cover should be sufficient to significantly reduce or eliminate erosion and sediment production.
